## GERMANY AGREES TO PAY INDEMNITY TO U.S.

### PROPOSAL TO CLOSE CASE OF LUSITANIA

Kaiser Assures that Vessels in Private Ownership will not be Torpedoed

(By Associated Press.) WASHINGTON, Jan. 7.—Proposals, which Germany believes will end the Lusitania controversy satisfactory to the United States, are understood to have been received from Berlin. Germany is believed to have agreed to pay indemnity for the Americans lost, at the same time basing a reservation as to any wrong doing on the contention that the destruction of the Lusitania was a reprisal in retaliation for the British blockade of Germany. Germany is understood to be ready to give assurances that submarines in the Mediterranean will not torpedo without warning any privately owned vessels.

(By Associated Press.) WASHINGTON, Jan. 7.—The submarine crisis, still uncertain in its status because of lack of details, was placed by the president before his cabinet. The senate foreign relations committee also met to consider the situation. The officials are still uninformed as to whether the Persia was torpedoed. The government will withhold action pending official advice. Ambassador Penfield, at Vienna, cabled that Austria was without information concerning the Persia until January 4. Consul Garrels at Alexandria cabled that he had affidavits from twenty-one survivors. They all confirmed previous statements that "No warning was given and no vessel was seen."

### LEASE IN MIDWAY IN A PROFITABLE LENS

NEW FIND ADDS TO THE POTENTIALITY OF A VERY PROMISING PROPERTY

A splendid development has taken place in the old workings of the Midway Consolidated Mining company. The Vanthre lease has opened up a three-foot ledge in virgin territory. It averages \$30 a ton. A shipment from this opening is being prepared. All the lease blocks are looking well and the tributers have been getting out a heavy tonnage since the first of the year.

On company account, the company is driving south from the new shaft on the 835 level and is following a vein of Montana breccia, making about forty feet during the past week.

(By Associated Press.) TACOMA, Wash., Jan. 7.—To care for ten patients who are suffering as the result of sudden loss of their source of liquor supply, owing to the prohibition law, a special ward was fitted at the county hospital today. About twenty other persons are waiting for admission to the ward.

The sufferers from alcoholism were segregated owing to the noise they made.

A shipment was also made from the Tonopah mill of the company, but the figures are not yet available.

### LEASERS TAKING OUT ORE FROM MONTANA

BOILERS BEING OVERHAULED WILL CAUSE LEASERS TO HOLD THEIR PRODUCT

On account of necessity for overhauling the boilers at the Montana hoist there is a cessation of shipments for several days, during which time the tributers are piling up their reserves for forwarding. Since January 1, the following shipments have been made from the lease blocks:

Denny Hill and associates, 50 tons of \$35 ore; Evans and associates, 50 tons of \$35 ore; Charles Bert and associates, 65 tons of \$30 ore; O'Connor, 50 tons of \$30 ore, making a total of 215 tons, valued at \$6950.

In the case of the State of Nevada versus W. W. Booth (the county commissioners being the prosecuting witnesses) on the charge of criminal libel, argument was concluded at 9:40 last night and the jury retired to deliberate. Several ballots were taken and at 3 o'clock the jurors retired to their cots, resuming their deliberations early this morning. At 10 o'clock they were called into court by Judge Walsh, when they stated that they had been thus far unable to arrive at a conclusion unanimously. They retired to continue their balloting.

### LAST MEASURE TO BE RESORTED TO

MILITARY SERVICE BILL PASSES FIRST READING IN THE HOUSE

(By Associated Press.) LONDON, Jan. 7.—There seems little doubt that the general election will be the last measure resorted to by the government to obtain the desired "general consent" to the establishment of an attenuated form of compulsion provided for in the pending military service bill, which passed first reading in the house last night by a vote of 403 to 105.

ARGUED AND SUBMITTED

In the supreme court this morning arguments were made on the appeal in the paving suit of Alf Chantz and others versus the City of Carson. The case was submitted and an early decision is expected, says the Appeal.

It is generally understood that the attorney general will file a brief as amicus curiae for the purpose of sustaining the state revenue board, the legality of which body has been attacked by the plaintiffs in this action.

### CALIFORNIA SOLONS FAILING TO AGREE

GOVERNOR AND HIS LEGISLATURE ARE GETTING AT LOGGERHEADS

(By Associated Press.) SACRAMENTO, Jan. 7.—Governor Johnson, in a statement, scored the proposal for a compromise measure which the opposition suggested as a substitute to the governor's plan to straighten out the election law tangle. The governor sets aside the compromise as worse than the course of the opposition originally contended for. The assembly election committee passed out these with recommendations "do not pass". The Lyon bill to amend the primary law and provide for party registration and the Burke bill to amend existing non-partisan registration and provide for party designation. Attorney General Webb advised the committee that the Lyon bill was outside the jurisdiction of the official call and that the Burke bill was unconstitutional. All bills passed the senate on second reading excepting two, having been passed out by committees.

### FAIR WOMEN TO SIT ON NYE CO. JURIES

CUPID POHL HAS SOMETHING OF A TASK, BUT WILL DO HIS DUTY

This is leap year and the girls are supposed to have all the best of it, but the worst is yet to come. They will find themselves, at least a number of them will, candidates for the jury box. The county commissioners and the county clerk are today engaged in picking out the likely people to serve as veniremen and venirewomen during the year and they are not limiting themselves to the male sex.

The names of a big bunch of unmarried women have already been selected for jury duty. The authorization has been unanimously awarded to Bob Pohl to decide whether they are or are not 21 years of age. He will pass upon them all at once, or one at a time, according as may best suit the fair ones whose names will go into the wheel.

### DEADLINES OF THE AUTO DECREASING

MACHINES ARE NOW DRIVEN WITH MERE REGARD FOR PUBLIC SAFETY

(By Associated Press.) WASHINGTON, Jan. 7.—Is the deadliness of the automobile increasing or decreasing?

This question seems to be answered in a very conclusive manner by the bureau of the census, in making public some preliminary mortality statistics for the year 1914, which indicate that during the five years from 1909 to 1914 the number of automobiles in use in the United States increased more than twice as rapidly as the number of fatalities caused by them.
